

Please include with your submission:

A headline; complete byline; brief biographic statement, including current affiliations; and author photos.

A statement of relevant disclosures.

Any figures, graphs, or photographic images, along with titles and captions/legends, that you wish to run with your article. Hi-resolution image files (300 dpi at final print size) are required.

A full list of citations in AMA citation format. Examples are available here: <http://www4.samford.edu/schools/pharmacy/dic/amaquickref07.pdf>

Please reference any statements, data, or other information that is not widely accepted. However, it is not necessary to extensively reference information that is widely accepted.

Please use superscripted endnotes for referencing.

You need not include an abstract or list of keywords.

Typical feature article length is 2,200-2,800 words. Columns typically are 1,500 words. Article length is flexible.

Note that our editorial style differs from that of traditional research journals and is not as formal. It is acceptable to use the first person voice.

Authors should expect their submissions to be edited for content, clarity, and style. All revisions will be submitted to the author for final approval final to publication.

Editorial submissions in Microsoft Word that meet the requirements described above, along with any images, graphs, or tables, can be e-mailed to the appropriate contacts listed below.
