360-DEGREE SPRAY SUNSCREEN LAUNCHED
Glytone Sunscreen Spray Mist SPF 50 combines an antioxidant complex with Broad Spectrum UVA/UVB technology to protect against sunburn and photoaging. Its antioxidant technology converts free radicals to non-reactive water and oxygen, providing protection against premature skin aging. Also, the patented Delta-Tocopheryl Glucoside, a precursor of vitamin E, provides continuous release of a potent antioxidant to protect skin tissue, according to the company. With an upside-down continuous sprayer, the mist sunscreen is ideal for use before and after swimming and sports and provides coverage at every angle. Glytone-usa.com

NEW SCAAR FX CAPABILITY AVAILABLE
Lumenis unveiled UltraPulse’s new SCAAR FX CO2 laser treatment capability last month at the American Society for Laser Medicine and Surgery (ASLMS) annual meeting in Kissimmee, FL. Using up to 150mJoules per pulse, the high energy impact and precision of SCAAR FX (Synergistic Coagulation and Ablation for Advanced Resurfacing) allows up to 4.0mm penetration into the skin tissue, four times deeper than any other CO2 laser, Lumenis says. The device is designed to improve both range of motion and the appearance of scars, the company says. Lumenis.com

NON-ABLATIVE LASER WITH NO DOWNTIME
Alma Lasers’ Harmony XL QSW 1064 Pixel (aka Alma Pixel Q-Switch) is a new, fractional, non-ablative skin remodeling treatment that boasts no pain and no downtime. The QSW 1064 Pixel laser hand-piece delivers a controlled dermal wound (up to 3mm in depth) and heats beneath the skin to reduce the chance of pain and requires no numbing. Since patients have no prolonged facial redness and swelling, they can return to work the same day, the company says. In addition to fighting fine lines and rough skin texture, Pixel Q-Switch is gentle enough for treating dark circles around the eyes and the tightening of the skin on the neck. Almalasers.com

NEW KINERASE LINE AVAILABLE IN JUNE
Dr. LeWinn by Kinerase is launching its new Wrinkle Repair Day and Night Cream in June. The new formula is an intensive moisturizer for day and night designed to help minimize wrinkles and protect skin from environmental damage. It is free of parabens, fragrances, and dye. This is the first line of skin care products sold in the mass market that offers exclusive clinical strength kinetin in anti-aging formulas, according to the company. Drlewinnbykinerase.com

NEW ANTIROUGEURS LINE FOR REDNESS AND ROSACEA
Avene has launched a full line of products for patients with flushes, persistent redness, enlarged blood vessels, pimples, and post-laser treatment. The multi-step process cleanses, moisturizes, treats, and soothes skin while repairing irritated or weakened skin, and its high concentration of Avene Thermal Spring Water is soothing and anti-irritating. The treatment stage includes the Antirougeurs FORT Relief Concentrate, which can be used in monotherapy or as a complement to medical treatments. The Antirougeurs CALM Soothing Repair Mask is used during the soothe/repair stage for flare-ups and post-laser. The innovation behind the Antirougeurs line is a saponin-enriched ruscus extract, the company says, which has a vaso-constricting effect and decreases skin reactivity. Aveneusa.com

TINTED MINERALS AND PRIMER WITH SUNSCREEN AVAILABLE
La Roche-Posay has launched Anthelios 50 Tinted Mineral Ultra Light Sunscreen Fluid, an advanced UVA/UVB 100% mineral, non-chemical sun filter with universal tint technology. The product uses mineral technology to prevent clumping and settling of the formula for uniform application and...
protection without the need for foundation or makeup after. Plus, its CELL-OX Shield protects against cell damage and environmental aggressors. La Roche-Posay also has cosmetic formulas to aid in sun protection. The Anthelios 50 Daily Anti-Aging Primer With Sunscreen uses UVA/UVB protection and antioxidants to correct signs of aging and promote daily prevention of skin aging. The company says its blurring effect corrects lines and pores with light-reflecting micro-particles, yet is formulated with a lower amount of total silicones versus traditional primers. MOLTON BROWN RELEASES FIRST ANTI-AGING COLLECTION

Composed of plant, mineral, and fruit extracts from around the world, each product in the Molton Brown collection has been designed for individual skin types and targets specific problems. Some include kalahari melon to keep skin supple, antioxidant-rich malachite, and exfoliating pink toronja grapefruit. The line includes 13 products, including a lip booster, eye treatment, toner, cleansing gel and fluid, and sunscreen. Moltonbrown.com

SR VOICE DELIVERS APPOINTMENT REMINDERS

Streamline office management problems by employing the SRVoice service from Solutionreach. The stand-alone service delivers appointment reminders via an automatic phone message, allowing patients to easily confirm or cancel appointments. Dermatology practices can easily integrate the SRVoice service into their existing practice system. The company states SRVoice is a great option for patients who are inconvenienced by a text messaging service or prefer to be reached by telephone. Solutionreach.com

REGULATORY UPDATES

CELOTRES EARNs CE MARK APPROVAL FOR WOUND HEALING

European regulators have granted CE Mark approval for Celotres™ hydrogel scaffold from Halscion, Inc. The CE Mark approval was based on the results of a prospective, multi-center, randomized, same-patient controlled, European clinical trial evaluating the efficacy of a single application of Celotres for improving wound healing and resulting scars. Surgeon observer (p=0.0018) and subject (p=0.0009) comparison of Celotres-treated scar or scar half to control was statistically significantly in favor of Celotres using the Anchored Visual Analog Scale. There was no difference in adverse events between the active treatment and control groups.
